

Rubber Goods Sales and Testing

Serving the Electrical Utility Industry since 1960

**Introducing:
Rubber Goods Change Out™ Program**

**RUBBER GOODS SALES,
TESTING & STORAGE**

Whether you want new rubber goods, or need to test old ones, Hi-Line is your one-stop rubber goods shop.

Taking Rubber Goods testing to another level, Hi-Line *Rubber Goods Change Out™* program insures that rubber products meet or exceed ASTM standards and OSHA regulations while maximizing product usage. Like clockwork, rubber goods are cleaned, tested, custom date-stamped and on your dock when you need them. The program allows crews to maximize usage of rubber products while minimizing warehouse inventory. For those who outsource this technical duty to the experts, Hi-Line is a great resource. Hi-Line's test lab is climate controlled and state-of-the-art. In addition, Hi-Line stocks one of the largest new rubber goods inventory in the country and can immediately replace any goods not meeting ANSI or OSHA standards. Through its *Rubber Goods Change Out™* program, Hi-Line partners with utilities, contractors, and municipalities supporting as many as 4000 lineman or a crew of three.

Rubber Goods Testing
