

Rubber Goods Inspection, Testing, Cleaning and Storage.

Meet OSHA standards. Let Hi-Line's highly skilled technicians inspect, clean, and test your rubber gloves, blankets, sleeves and line hose in an ASTM accredited testing lab. We'll even store your stuff in our climate controlled warehouse until you're ready for it, assuring your rubber goods cycle in accordance with safety rules. Just call Hi-Line and consider it done.

"I send my rubber products to Hi-Line. After 35 years in the business, I trust Hi-Line. With my gloves, and my life."

-John, Powerlineman,
