This utility-proven warning sign system is the most advanced and compact you will find. Signs and sign stands have been accepted by the FHWA - NCHRP-350. The system consists of separate sign panel and sign stand:

**COMPACT® SIGN SYSTEM**

- Aircraft aluminum alloy legs and upright with anti-skid rubber caps
- Coated steel base and springs
- Adjustable legs for stability on curbs or uneven terrain
- Dual springs provide maximum wind resistance
- Kick release legs simplify set-up
- Storage length 25”
- Will yield in case of accidental impact

**COMPACT® COLLAPSE & WRAP SIGN PANEL**

- 48” Signface permanently attached to foldable crossbrace
- Retro-reflective material is highly visible in daylight or headlights
- Pops open for rapid deployment
- Slides easily into Drop & Lock upright in sign stand
- Optional flag holder for three ¾” diameter flags (flags not included)
- Collapses instantly - Single Trigger Release Button
- Can be stored separately or in place wrapped around sign stand

**WINDMASTER® SIGN STAND**

</tr>
</tbody>
</table>

**SIGN STAND STORAGE BOX**

- Molded high-density polyethylene with drain holes
- Mounts inside or outside truck
- 18”W x 8”D x 24”H
- Holds two sign stands

**HITCH MOUNT SIGN HOLDER**

- Fits into any 2” square hitch receiver
- For use with Compact or DuraLatch® signs
- Can be rotated 45°
- 2-position telescoping upright
- Made in USA

**VEHICLE MOUNT SIGN HOLDER**

- Mounts easily to grab bar
- Sign deploys quickly and safely
- Can be stored in place ready for immediate use
- Made in USA

Duralatch Roll-Up Panels & Crossbracing should be used with the WindMaster Sign Stand (pg 276)

DURALATCH® ROLL-UP PANEL

- 48” signface
- Retro-reflective material is highly visible in daylight or headlights
- EPDM rubber straps allow sign to expand/contract
- Heavy-duty steel and fasteners
- Absorbs stress caused by gusting winds and passing vehicles
- Will not disengage in backwinds
- Requires DuraLatch crossbracing (sold separately)
- Use with WindMaster Sign Stand (page 276)

*Specify the Order Code from the Sign Panel Legends below when ordering

SIGN PANEL LEGENDS

Specify legend order code from below options when ordering sign panels:

- Utility Work Ahead: Order Code: UWA
- Right Lane Closed Ahead: Order Code: RLLCA
- One Lane Road Ahead: Order Code: OLRA
- Be Prepared To Stop: Order Code: BPTS
- Worker Symbol: Order Code: WS
- Flagger Symbol: Order Code: FS
- Merge Left: Order Code: ML

OTHER LEGENDS AVAILABLE UPON REQUEST

Overlay panels are available for wording change. Example: Change “RIGHT LANE CLOSED” to “LEFT LANE CLOSED”
**DYNA-FLEX SIGNS**

The Dyna-Flex sign system incorporates a stand with horizontally mounted springs which deflect winds.

The Fold-N-Roll panels have vinyl reflective panels and collapse to a small size for easy storage. Storage bags are available.

**ZEPHYR SIGNS**

A stackable, rubber base is used to hold "Zephyr" Roll-up type sign panels. The base incorporates a molded handle and a folding panel attachment bracket for easy use and deployment.

Fiberglass panel supports will flex allowing the wind to "spill" when attached to base. Size: 28” x 18” Weight: 38lbs.

**SIGN PLACEMENT GUIDE**

**TRAFFIC CONES**

Cat. No. **28PVCS-C**
28” polyvinyl cones have high visibility under all weather conditions.

Cat. No. **3012918**
Four pack of 18”, lightweight nylon **pop-up** cones with solid red LED
POLE MOUNT FLAG HOLDER

Chain binder attaches flag holder to transported pole for safer transport. Holder has malleable iron main casting with strong coil spring. Flags sold separately.

WARNING FLAGS

Cat. No. KV18-24TR
18” fluorescent red mesh flag with hardwood staff.

STOP/SLOW PADDLES

Cat. No. SSP-1
Lightweight thermoplastic construction. 21” upper handle attaches to a 60” lower handle providing overall height of 8’5”.

Cat. No. SSP-1T
Same as above, with telescoping handle. Handle is 55” collapsed and 93” fully extended.

FR SAFETY VEST

Cat. No. SV-L2-XL
This yellow FR safety vest offers 360 degree visibility with reflective tape. Machine washable. Meets ANSI 107 Class 2 standard. Other sizes available.

HIGH-INTENSITY POLE TRANSPORT MARKERS

- Increases visibility (up to 1000 ft in daylight) of poles being hauled along roadways and helps maintain compliance with US Department of Transportation regulations.
- Includes two flags, a tamper-resistant, flashing warning light, and a ratchet strap with steel grips for attaching to a pole prevents slippage.

</tbody>
</table>

POLE TRANSPORT MARKERS

- Provides increased visibility for the transportation of utility poles on public highways.
- Two flags are combined with a warning light for optimum visibility. Includes strap binder for attachment to pole.
- “Steady-On” or “Flash” mode switch. Batteries not included.
- Standard markers are visible from the front and back. Also available with 360 degree visibility.
